

ACCESSORIES

OUR SMART & SAFETY SHUTTER ACCESSORIES

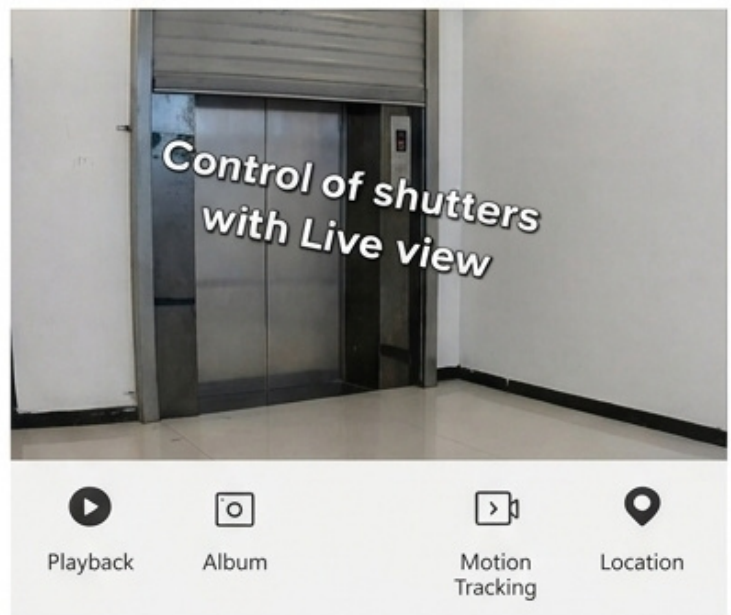

SMART CONTROL

Remotely manage your shutters from anywhere. The user-friendly interface allows for full control of opening, closing, and stopping your security shutters with just a tap, for convenient and secure access.

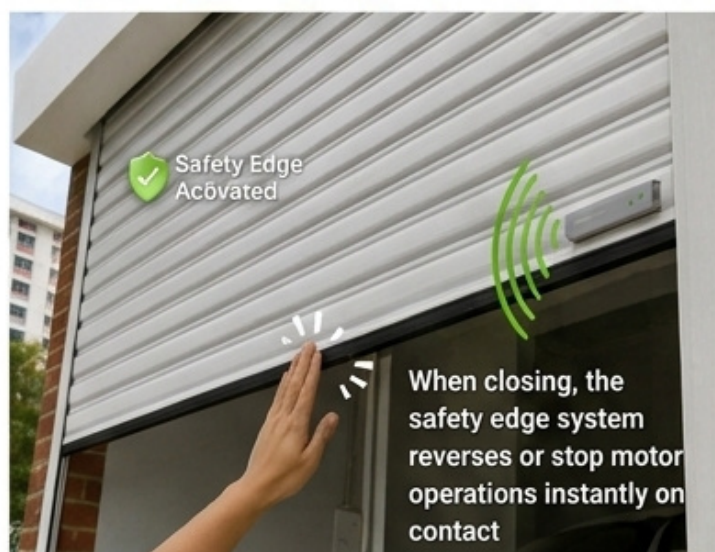

SMART CONTROL WITH LIVE VIEW

Monitor your property in real-time. The smartphone app provides a live video feed, ensuring complete visibility and control over your shutters, even when you're away.

SAFETY EDGE DEVICE

Integrated safety edge sensors automatically reverse or stop shutter operations instantly upon contact, preventing accidents and damage. Ideal for heavy-use industrial and commercial environments.

SAFETY INFRARED SENSOR

Our advanced infrared light grid detects obstructions across the entire width of the shutter opening. Operation stops immediately, ensuring maximum safety for personnel and cargo.
